Title:	Removal of Palm Trees to allow for Implementation of TMP 03		
Description:	In order for the contractor to be able to implement TMP03 two palm trees need to be removed as per attached plan. These are not part of the ERA permit and therefore we required your guidance on this matter. Kindly advise how to proceed.

Project Manager	Please study the option of retaining the existing palm tree by revising the lane to start curvature/bend before. Area where the kiosk tables and chairs are located, may be used to your advantage.
